Vogy Smog Typeface Overview

1 font, Latin alphabet

Vogy Smog, take the typographic Rorschach test

In the lowercase, Vogy Smog is a sans of wide proportions, with barred forms for i and l, yada yada yada. In the uppercase, Vogy Smog goes ape. The spaghetti pile M is my chewed mixtape. What's in the Q? It's the smoke ring you blew. T's the tag we leave on the train. F is for their flashlights as we run in vain. Watch the powerline! X - the arc discharge. D's a drip of blood. We walk at large.

When used in all caps, Vogy Smog resembles a typographic Rorschach test, a series of kinetic miniatures. For situations where the fuming capitals are too much, you can swap them for plainer forms (by activating small caps or Stylistic Set 1). With the unusual weight distribution, they're not exactly conventional either, and weave a spellbinding pattern of thicks and thins.
