Suisse Int'l Medium, 12pt

The Olympic Games are considered the world's foremost sports competition with more than 200 events. The Games are held every four years, with the Summer and Winter Games alternating by occurring every two years at alternate years. The modern Olympic Movement was inspired by the ancient Olympic Games, which were held in Olympia, Greece, from 776 to 393 BC. Baron Pierre de Coubertin founded the International Olympic Committee (IOC) in 1894. The IOC's Olympic Movement, with the Olympic Charter defining its structure and authority. The evolution of the Olympic Games in the 21st centuries has resulted in several changes to the Olympic Games. Some of these adjustments

Suisse Int'l Book, 8pt

The IOC has had to adapt to a variety of economic, political, and technological advancements. As a result, the Olympics has shifted away from pure amateurism, as envisioned by Coubertin, to allowing participation of professional athletes. The growing importance of mass media created the issue of corporate sponsorship and commercialisation of the Games, which led to the cancellation of the 1916, 1940, and 1944 Games. The Olympic Movement consists of international sports federations (IFs), National Olympic Committees (NOCs), and organising committees for each specific Olympic Games. As the decision-making body, the IOC is responsible for choosing the host city for each Games, and organises and funds the Games according to the Olympic Charter.

The Ancient Olympic Games were religious and athletic festivals held every four years at the sanctuary of Zeus in Olympia, Greece. Competition was between representatives of several city-states and kingdoms of Ancient Greece. The Ancient Games featured mainly athletic but also combat sports such as wrestling, boxing, the pankration, horse and chariot racing events. It has been widely written that during the Games, all conflicts among the participating city-states were postponed until the Games were finished. This cessation of hostilities is known as the Olympic peace or truce. This idea is a modern myth because the Greeks never suspended their wars. The truce did allow those religious pilgrims who were travelling to Olympia to pass through warring territories unmolested.

Suisse Int'l Regular, 7pt

Various uses of the term "Olympic" to describe athletic events in the modern era have been documented in the 17th century. The first such event was the Cotswold Olimpick Games, or "Cotswold Olimpick Games", an annual meeting held in Chipping Campden, England, involving various sports. It was first organised by the lawyer Robert Dover between 1612 and 1642, with several later celebrations leading to its decline.

L'Olympiade de la République, a national Olympic Games held annually from 1796 to 1798 in Revolutionary France, also attempted to emulate the ancient Olympic Games. The competition included several disciplines from the ancient Greek Olympics. The 1796 Games also marked the introduction of the metric system into sport. In 1811, the Olympic Class was started by William Penny Brookes in Birmingham.

Between 1862 and 1867, Liverpool held an annual Olympic Festival. Devised by John Hulley and Charles Hulley, these games were the first to be wholly amateur in nature and international in outlook, although only 'gentle amateurs' could compete. The programme of the modern Olympiad in Athens in 1896 was almost identical to that of the Liverpool Olympics. In 1865 Hulley, E

Олимпийские игры Древней Греции представляли собой религиозный и спортивный праздник, проводившийся в Олимпии. Сведения о происхождении игр утеряны, но сохранилось несколько мифов, описывающих это событие. Из истории к нам дошло множество дощатых строений и скульптур того периода. Если внимательно присмотреться, заметим, что все статуи того периода показывают тела людей и не любые тела, а красивые. В тот период истории был распространён культ красивых форм для строений и культ красивых тел. «В здоровом теле здоровый дух», – так можно описать одну из идей и причин появления красивых скульптур. Занятия спортом и спортивные соревнования

Олимпийская идея и после запрета античных состязаний не исчезла совсем. Например, в Англии в течение XVII века неоднократно проводились «олимпийские» соревнования и состязания. Позже подобные соревнования организовывались во Франции и Греции. Тем не менее были небольшие мероприятия, носившие, в лучшем случае, региональный характер. Первыми настоящими предшественниками современных Олимпийских игр являются «Олимпии»иен, которые проводились регулярно в период 1859–1888 годов. Идея возрождения Олимпийских игр в Греции принадлежала поэту Панайотису Суцосу, воплотил её в жизнь общественный деятель Евангелис Заппас. Олимпийская идея и по
